## EDUCATION

---

### Saarland University (UdS)

Saarbrücken, Germany

*MSc in Business Informatics*

Oct 2020 - Dec 2023

- Grade: 1.1 (in Computer Science)
- Highlight Courses: Data networks (1.0), Fundamentals of algorithms and data structures (1.3), Mathematics for computer scientists 3 (1.3), Security (1.7), Automated Debugging (1.7), Data Science (2.0)

### Eberhard Karls University Tübingen

Tübingen, Germany

*BSc in Economics and Business Administration*

Oct 2016 - Jul 2020

- Focus: Marketing, International Business, Banking and Finance
- Highlight courses: Mathematical methods of economics (1.0), Probability and risk (1.3), Quantitative methods of economics (1.7)

### Goethe University Frankfurt am Main

Frankfurt am Main, Germany

Economical Preparatory Course

Sep 2015 - Jun 2016

## WORKING EXPERIENCE

---

### JAM Software GmbH

Jan 2025 - Now

*Full time; Full stack LLM Application Engineer (Chatbot Development & Research)*

- Designed and deployed customized chatbot solutions leveraging various LLM frameworks (LangGraph, LangChain, Pydantic AI, Azure OpenAI, Langfuse).
- Integrated advanced techniques such as Retrieval-Augmented Generation (RAG), Knowledge Graphs, and tool-calling to enhance functionality and performance.
- Collected continuous user feedback and conducted testing cycles to iteratively improve product quality and user experience.
- Currently engaged in a research project focused on exploring alternatives to RAG, data conflict resolution algorithms, and innovative data representation methods for LLM applications.

### DekaBank Deutsche Luxemburg

Jun 2024 - Sep 2024 (expected)

*IT Internship; Advisor: Christian von Gierke*

- Java development in the field of cloud migration financial IT technology service (FI-TS).
- Support in requirements management.

*Highlight Projects:*

- UTF8Converter: A tool that recursively converts ISO-8859-1 encoded project files to UTF-8.
- GitlabImporter: An automated tool leveraging GitLab4J API to streamline branch creation, commits, pushes, and merge requests across multiple projects simultaneously.

## RESEARCH EXPERIENCE

---

### Master Thesis

May 2023 - Dec 2023

*ARPO: an Application of Augmented Reality (AR) in Powerlifting*

- Independently developed an AR training assistance system using Unity 3D and Microsoft Azure Kinect. The system utilizes spatial skeleton data from real-time capture of a powerlifter's body and compare their motions with a standard motion, offering real-time corrective feedback and motion assessment through a 3D avatar on screen.
- Conducted evaluations through a user study and statistical analysis.

### Privacy-Friendly Communication System for Humanitarian Institutes

May 2023 - Apr 2024

*Research Assistant; Advisor: Dr. Wouter Lueks, CISPA, Saarbrücken*

- Investigated and compared the state-of-the-art privacy threat modeling frameworks.
- Identified potential privacy threats and analyzed threat models.

### Mobility-as-a-Service Digital Concepts for Saarland

May 2022 - Feb 2023

*Research Assistant; Advisor: Prof. Wolfgang Maass, UdS, Saarbrücken*

- Preprocessed and analyzed city traffic data with Python's Pandas library.
- Developed a Mobility-as-a-Service App prototype.
- Developed an interactive map of city traffic hotspots using the Python's Folium library.

## TEACHING EXPERIENCE

---

### Saarland University

May 2023 - Apr 2024

*Teaching Assistant, Course: Privacy-Enhancing Technologies, Dr. Wouter Lueks*

- Collaborated with preparing lecture handouts and exercise sheets.
- Assisted with the correction and explanation of course projects.

### Saarland University

Nov 2021 - Apr 2022

*Teaching Assistant, Course: Algorithms and Data Structures, Prof. Raimund Seidel*

- Collaborated in developing teaching and tutoring materials.
- Assisted with the correction and explanation of weekly exercise sheets.

## AWARDS

---

|                                                          |             |
|----------------------------------------------------------|-------------|
| The Germany Scholarship for high-achieving students, UdS | 2023 - 2024 |
| The Saarland Scholarship for International Students, UdS | 2022 - 2023 |
| Funded CASA Summer School on Software Security, Bochum   | 2023        |
| Funded Informatika Feminale Summer School, Bremen        | 2023        |

## SKILLS

---

Programming Skills: Python, Java, html, C, C#, R, Stata, MiniZinc, Vibe Coding with Roo&Claude Code.

Frameworks & Tools: LangChain, LangGraph, Azure, Docker, Portainer, Neo4j, Cognition, Unity, Wireshark

Languages: German C2, English C2, Mandarin first language, Japanese A1.
